16. [] LIAISON I made personal contact with the offices of the following new members of the Senate Select Committee on Intelligence to follow up on conversations between Chairman Daniel K. Inouye (D., Hawaii) and Mr. Knoche regarding background briefings for them: Senators Daniel P. Moynihan (D., N. Y.), Charles McC. Mathias (R., Md.), James B. Pearson (R., Kan.) (Frances Cody), John H. Chafee (R., R. I.) (Hollis Brown), Richard G. Lugar (R., Ind.) (Erica), and Malcolm Wallop (R., Wyo.) (Cindy). I suggested that we try to brief these members sometime next week, and I pointed out that these briefings could be given either singly or in groups, if several members could come out, preferably for breakfast, at the same time. The offices are to be back in touch with me, and we will set dates for these sessions.

17. [] LIAISON At his suggestion, I dropped by the office of Clark McFadden, on the staff of the Senate Armed Services Committee, and chatted briefly with him and John Roberts, who will be replacing McFadden on the Committee staff. I told Roberts (acting on advice from McFadden that Roberts would be taking over certain of his functions with respect to intelligence activities) that we would be happy to give him background briefings at his convenience. Roberts' clearances are being updated with the Department of Defense, and he will be back in touch with me or with [] when he has been advised that those clearances have been updated and reinstated.

18. [] LIAISON Received a call from John Swanner, Staff Director, House Committee on Standards of Official Conduct, who was working on his papers for application to DOD for security clearances. Swanner asked me several questions regarding these papers, which I took up with [] of the Office of Security. On [] advice I told Swanner that if needs any assistance when he submits the forms to DOD to let us know.

19. [] INTELLIGENCE BRIEFING Received a call from Rick Holt, on Senator Richard Lugar's (R., Ind.) staff, who advised that the Senator's schedule was very tight for the foreseeable future, and that he would like to delay background briefings at least for the immediate future. I told Holt that we appreciated Senator Lugar's situation, and that we merely wanted to be sure he understood that we were quite willing to give him briefings at such time as it was convenient for him to receive them. I told Holt that we would await further word from him on scheduling.
